**"The Hidden Secrets of DUI Defense."**

**By  
Lee Martin  
Dui Defense Lawyer**

If you or someone you know has been stopped by the police for a DUI offense, you're probably confused or worried about what steps to take next like:

- Will I lose my driving privileges?
- Is there really a way to fight a DUI charge?
- Will I have to go to jail for a DUI?
- Will my insurance premiums go up?
- What happens if I don't show up in Court?
- Do I really need a lawyer or can I just show up in court on my own?
- How will I know that the lawyer I've chosen to defend me is the right lawyer for my DUI defense?

If you or someone you care about has any of these concerns, then please keep reading this Special Report. Hello, my name is Lee Martin and I have been helping clients as a DUI lawyer in Tennessee for nearly 13 years.

I've focused my practice on the challenges faced by clients who end up with DUI charges that could land them in jail, pose heavy fines, and suspend their driving privileges. It's unfortunate, but many people these days end up with a DUI conviction on their permanent record when they didn't have to.

Did you know that everyone who is pulled over for a DUI is not guilty of that crime? In fact, there are several ways to rebut the evidence gathered by the police in a DUI arrest. Inside this Special Report I'm going to outline some of these key points.

Unfortunately, I see way too many people misinformed about the court system and their legal rights as a motorist when faced with a DUI charge.

That's why I've taken time to write this Special Report and offer it for Free to anyone who wants to read it. Did you know there are key secrets to protecting your legal rights and driving privileges?

Doing nothing at all is one of the worst things you can do! As auto insurance premiums continue to rise, you really don't need your rates to rise because of a DUI conviction. Or even worse, dropping your coverage all together because of a DUI that you might not have been guilty of in the first place. The truth of the matter, there are several myths about defending a DUI case that everyone should know about but don't. If you or someone you know has been charged with a DUI, there are some sobering facts you need to know.

**It is best to get the "right" information before you do anything.**

## **HOW CAN THIS BE HAPPENING TO ME?**

I know exactly how you feel because I deal with harsh realities that the DUI accused faces everyday in my practice. It's hard enough to make ends meet these days without adding the loss of driving privileges, loss of job opportunities, mandatory jail time, and heavy fines to the mix. Not to mention the social stigma attached to a DUI conviction.

After you read this special report go to my notable DUI cases section and let me share with you some real life examples of how I've helped clients get their lives back after a DUI charge. The best part these cases is that I have been successful at helping people get their lives back on track.

## **NO MIRACLES....JUST HARD WORK!**

Now, I did not work any special miracles on these cases. I just did my job as a lawyer. I did the hard work I was supposed to do that was necessary to help my clients. I investigated their cases, hired necessary experts, interviewed witnesses, examined the records and documented and verified their claims. I knew the law, followed the proper procedures and held my ground for my clients.

With almost 10 years of experience in criminal law, I was able to analyze their situation, recommend the best course of action and obtain a just and fair outcome for their cases.

The tragedy in all of this is that there are many people out there just like you who never got a chance to fully understand their legal rights. Every year, thousands of people get unfairly charged for DUI without fully understanding the legal process.

That's why I've dedicated myself to fully informing and educating my clients to what steps are necessary to protect their legal rights.

## **In Fact: There's A Lot More On the Line When It Comes to a DUI Charge Than You Think!**

### **WHAT YOU NEED TO KNOW BEFORE YOU EVER GO TO COURT FOR A DUI CHARGE!**

#### **MYTH # 1: MOST PEOPLE ACCUSED OF A DUI CHARGE ARE GUILTY!**

(Note #1)

This myth is probably one of the most troubling one of all harbored by the public and lawyers alike. In my opinion, lawyers who believe this should never represent a client accused of DUI. They cause harm to their clients by eliminating objectivity.

In the cases where the chemical test used by law enforcement, is an infrared breath analysis machine and not a blood test, a skillful defense attorney can attack this type of evidence.

Fortunately for us most prosecutors have no idea how inadequate infrared breath machines are at gathering hard evidence. The fact is that these machines are so unsophisticated at gathering data that virtually no scholarly researcher would ever use it as a means of investigation. Yet prosecutors assume that since the state has approved these machines, its accuracy and reliability are not subject to be challenged in a court of law.

Did you know that there are several ways to rebut the evidence presented from these unsophisticated machines if the attorney understands how these machines work? Most importantly what causes these machines to malfunction, and that they are nonspecific to alcohol. (Note 2)

The most important fact to understand is how these machines work and how to effectively cross-examine the state's chief witness (the operator) of this device on the alleged "accuracy" of the machine.

How about the classic roadside sobriety tests? What I call the "opinion" gathering evidence done at the scene of arrest. Recent studies have shown that these field tests are assumed to be valid. However, most officers who administer these tests either require the wrong test or improperly instruct the suspect on how to perform them. (Note 3).

Being skilled at obtaining the right data could help in obtaining a pre-trial ruling that these tests and the alleged indictment must be excluded from evidence due to lack of scientific foundation.

I leave NO stone unturned! The bottom line here is that these cases require detailed scientific investigation, similar to a complex murder scene that involved DNA evidence or ballistics.

## **MYTH # 2: IT'S IMPOSSIBLE TO WIN A DUI CASE!**

Not only does the general public believe this to be true, but also so do prosecutors. This myth is the biggest misconception regarding DUI cases. In fact, the good news is that experienced DUI defense attorneys “win” most of the first time offender cases when there is not evidence of a car accident or bad driving behavior.

When I say, “win” a DUI case I mean having the charges reduced to a lesser charge, different offense, or otherwise obtaining a plea that avoids a DUI conviction. The most important thing to remember here is you don't ever want to lose your driving privileges or land in jail.

## **MYTH #3: ANYONE CAN DEFEND AN ACCUSED DUI CHARGE.**

If a close friend needed a lawyer for a specialized field of law like IRS litigation, I would tell them to consult with a lawyer who works on IRS claims. I would look for the most skilled attorney who is focused on this area of law.

So the most important thing to remember when choosing a lawyer is to choose one who will aggressively defend your interests. By not investigating all your options fully you could leave yourself at the mercy of the prosecutor or judge. Again, if you had to go against the government you'd want the most aggressive skillful lawyer going up to bat for you.

Jus tot drive the point home, if you remember back to the “Trial of the Century.” In my opinion the only reason why O.J. Simpson didn't got to jail for life was because he retained the best experts and lawyers he could find. Not only I, but also thousands of people across the country believe that to be true.

## **MYTH #4: DRUNK DRIVING IS A MINOR CRIME.**

Maybe 20 or 30 years ago DUI charges were minor offenses. Many veteran attorneys remember the days when drunk-driving charges only carried a slap on the wrist, and fines of \$50.0 to \$150.00, with no loss of driving privileges. In fact it was a simple walk down to the courthouse paying a small fine and letting the judge reprimand you for a short while. However, those days are long gone!

Now with stricter DUI laws you need a lawyer who will represent your interests to the fullest extent of the law. A drunk driving charge could cost you your ability to drive, and not to mention land you in jail. So, the answer is drunk driving charges are very serious charges and you shouldn't take them lightly.

## **WHERE DO WE GO FROM HERE?**
